

Aleksandrs Kornijenko

CURRICULUM VITAE

Profile

I am an experienced and hardworking logistics specialist, who have decided to take the challenge and start the carrier in IT field. So, I've completed Software Testing courses and now I am looking forward to start my career in Software Testing.

My best qualities are: high level of responsibility, critical thinking, attention to details, willingness to learn and good team work skills. I am willing to learn new skills and gain more knowledge in testing to put it into work!
